

How to Get Started on Explore SAE (student)

Purpose: *This guide is to help students get started on their Explore SAE experience. Following these steps will allow their teacher to review the results. (See Teacher Guide for more information)*

Step 1: Visit Explore SAE

- ✓ On the homepage of ExploreSAE.com choose "Explore your SAE"
- ✓ Login as an AET user with your Chapter ID, Username and Password

AET Users

Use the sign-in form below to log into the SAE Explorer with your AET credentials.

Chapter: AET

Username: VKirby

Password: *****

Sign In

Step 2: Start a New Assessment

- ✓ Choose "Start New Assessment"
- ✓ Complete the Questions until all FOUR sections have been completed

SAE Explorer Tool

The SAE Explorer Tool is an in-depth, completely customized assessment tool for students enrolled in agricultural education courses to determine which type of SAE is most appropriate for their personal circumstances.

1. What is your current level of knowledge about SAEs?

None Some Knowledgeable Very Knowledgeable

Next

Dashboard

Section 1: Time

Section 2: Interest

Section 3: Money

Section 4: Overview

Step 3: Complete and Review

- ✓ Section 4 is the Brainstorming section to help you build your SAE prior to entering it in AET
- ✓ Once you have completed all sections you can review what SAE type you have been matched with and review your Explore SAE Report

*Remember to complete all narrative sections of Section 4 because your teacher will be reviewing them.

Explore SAE

Suggested SAE: Entrepreneurship

What is an Entrepreneurship SAE?
Entrepreneurship SAEs require time and money invested in the entrepreneur learning experience. Your project centers around the goal of developing a profitable project that grows your total equity.

How do I get started?
The first step in creating an effective SAE is to create an SAE Plan. Using the information you described during your SAE Exploration, we've generated the beginning components of a good SAE Plan. Use the information below as a starting point to creating your SAE Plan.

My SAE Details

Date Range: 08/01/2019 - 06/01/2020

Time Availability: Potentially 3-6 Hours Per Week

Interest Area: Animal Systems

Within Animal Systems, which of the following represents your area of interest?
General Livestock/Animal Systems

Within general livestock animal systems, which of the following represents your area of interest?
General Livestock Interest (Mixed animal species and industry area)

Which of the following best answers your use/involvement of money?
I plan to receive additional money above expenses (profit or paycheck) for my efforts in my project.

Which of the following best describes your project?
My project has risk to manage such as animal deaths, crop loss or cost of production, but hope to manage these situations.

Who is supervising my project and what role will they provide?
Teacher: Roger Haverhill

You can do an Explore SAE for several SAEs, not just one. All assessments save in your Explore SAE Account and you can even stop and come back to finish later. Your Ag teacher gets this final report to review as well.
